

Construction Site Health & Safety Professional

Quality Environmental Solutions & Technologies Inc. is currently interviewing candidates with construction site safety and health experience for varied assignments (e.g. NYCDEP, NYS, Private Sector, etc) projects at several locations. The position will report to the Director of Safety & Environmental Services and coordinate with the Onsite Supervisors/Engineer. Duties include monitoring the contractor's construction activities, field compliance reviews, environmental sampling, preparation of project reports and attending meetings as needed.

The individual should be a self starter, detail oriented, reliable and have experience with OSHA General Industry and Construction regulations, HAZWOPER 40 hour training, Hazardous Materials Investigations, Confined Space, First Aid, Bloodborne Pathogen, and OSHA 10/30 hour construction training desired. Must be able to perform physical work (Climbing, Walking, Bending, Lifting, Etc.) all field and weather conditions. Formal EH&S training and/or certification as a CHST/OHST considered a plus. Must be able to pass respiratory physical fitness and may be required to wear respiratory protective equipment up to and including SCBA. Computer literacy is required, must be familiar with Microsoft Outlook, Office and Internet.

Candidate should have 2-5 years construction related EH&S experience. Individual should be a self-starter, detail orientated, and able to work in a variety of settings.
