

Job Title: Instructor

Revision: 1.0

Rev. Date: 9/11/07

Quality Environmental Solutions & Technologies, Inc. is looking for full time, part time and per diem instructors for New York State Department of Health (NYSDOH) asbestos safety training courses, Occupational Safety and Health Administration (OSHA) construction training courses and other EH&S training courses.

The position requires individuals who are energetic and self motivated, with working knowledge of current NYSDOL asbestos regulations and OSHA construction and general industry regulations, including HAZWOPER. Duties include, but are not limited to, development of training curriculum, updating curriculums to reflect changes in subject regulations, implementation of new technology in the classroom, research of new teaching methods and techniques, review of textbooks, software, and other educational materials for recommendations on purchases and assistance in marketing of classes.

Applicant should have a bachelor's degree, at least one year of classroom instruction experience, at least one year of NYSDOH licensed asbestos experience (NYSDOH instructor approval a plus), a valid driver's license and reliable transportation. Applicant must have good communication and technical writing skills and basic computer skills using Microsoft applications, including Microsoft Powerpoint.

Majority of training classes are presented between the hours of 8:00AM and 5:00PM at our Wappingers Falls, New York facility. However, some situations may require evening classes or travel within New York State.

Instructors receive a competitive compensation package including salary, work-related travel reimbursement, bonus, medical and dental insurance contribution, company matched Simple IRA retirement program and paid vacation and sick time.

To apply, send resume, including salary requirements and list of courses you are able to teach to Scott Parker by fax: (845)298-6251 or email: sparker@qualityenv.com
